

Degree Project in Aerosol Science

PRESENTATION OF POTENTIAL MSc THESES PROJECTS AT LTH, 2024

Come and listen to pitches of potential MSc theses (Swedish: examensarbeten) at various departments within the LTH profile area Aerosols, including applications towards:

- Clean Air
- Technology
- Drug Delivery
- Climate

Both research-driven projects at LTH as well as projects in collaboration with Industrial partners will be described.

A light lunch will be offered to those who register.

After the pitches you will get the chance to talk to potential thesis supervisors, and discuss your own ideas for potential projects.

When: Mon 27th Nov, 12.00-13.00

Place: Room DC:467 at IKDC (after the lecture in Aerosol Technology, MAMF55)

Sign up on 22nd November at the latest by sending an e-mail to lena.leveen@design.lth.se, with info about any food allergies.

Most welcome!
